Alchemie & mystiek Alexander Roob 2001-06 Introductie in de wereld van de esoterie aan de hand van vele tekeningen, afbeeldingen en schema's in kleur en zwart-wit.

Psychology and Alchemy Carl Gustav Jung 1968

A Guided Tour of the Collected Works of C. G. Jung

Robert H. Hopcke 2013-02-05 The writings of C. G. Jung himself are the best place to read about all his main ideas—but where to start, when Jung's Collected Works run to more than eighteen volumes? Robert H. Hopcke's guide to Jung's voluminous writings shows exactly the best place to begin for getting a handle on each of Jung's key concepts and ideas—from archetypal symbols to analytical psychology to UFOs. Each chapter explains one of Jung's principal concerns, then directs the reader where to read about it in depth in the Collected Works. Each chapter includes a list of secondary sources to approach for further study—which the author has updated for this edition to include books published in the ten years since the Guided Tour's first appearance.

Psychology of the Transference C. G. Jung 2020-09-01

Extracted from Volume 16. An authoritative account, based on a series of 16th century alchemical pictures, of Jung's handling of the transference between analyst and patient.

Alchemical Studies C.G. Jung 2014-12-18 The psychological and religious implications of alchemy were

Jung's major preoccupation during the last thirty years of his life. The essays composing the present volume complete the publication of his alchemical researches, to which three entire volumes have been devoted ^DDL the monumental *Mysterium Coniunctionis*, *Psychology and Alchemy*, and *Aion* ^DDL besides shorter papers in other volumes. This collection of shorter Alchemical Studies has special value as an introduction to Jung's work on alchemy. The first study, on Chinese alchemy, marked the beginning of his interest in the subject, and was originally published in a volume written jointly with Richard Wilhelm. The other four are now published for the first time completely in English.

De scheppende mens Carl Gustav Jung 2000

Symbols of Transformation Carl Gustav Jung 1956 In 1911 Jung published a book of which he says: '...it laid down a programme to be followed for the next few decades of my life.' It was vastly erudite and covered innumerable fields of study: psychiatry, psychoanalysis, ethnology and comparative religion amongst others. In due course it became a standard work and was translated into French, Dutch and Italian as well as English, in which language it was given the well-known but somewhat misleading title of *The Psychology of the Unconscious*. In the Foreword to the present revised edition which first appeared in 1956, Jung says: '...it was the explosion of all those psychic contents which could find no room, no breathing space, in the constricting atmosphere of Freudian psychology... It was an attempt, only partially successful, to create a wider setting for medical psychology and to bring the whole of the psychic phenomena within its purview.' For this edition, appearing ten years after the first, bibliographical

citations and entries have been revised in the light of subsequent publications in the *Collected Works* and in the standard edition of Freud's works, some translations have been substituted in quotations, and other essential corrections have been made, but there have been no changes of substance in the text. he first, bibliographical citations and entries have been revised in the light of subsequent publications in the *Collected Works* and in the standard edition of Freud's works, some translations have been substituted in quotations, and other essential corrections have been made, but there have been no changes of substance in the text.

Mysterium Coniunctionis C.G. Jung 2014-12-05 *Mysterium Coniunctionis* was first published in the *Collected Works* of C.G. Jung in 1963. For this second edition of the work, numerous corrections and revisions have been made in cross-references to other volumes of the *Collected Works* now available and likewise in the *Bibliography*. *Mysterium Coniunctionis* was Jung's last work of book length and gives a final account of his lengthy researches in alchemy. It was Jung's empirical discovery that certain key problems of modern man were prefigured in what the alchemists called their 'art' or 'process'. Jung maintained that 'the world of alchemical symbols does not belong to the rubbish heap of the past, but stands in a very real and living relationship to our most recent discoveries concerning the psychology of the unconscious'. The volume includes ten plates, a *Bibliography*, an *Index*, and an *Appendix* of original Latin and Greek texts quoted in the work.

The Collected Works of C.G. Jung Carl Gustav Jung 1968

Collected Works of C.G. Jung, Volume 12 C. G. Jung 2014-03-01 A study of the analogies between alchemy, Christian dogma, and psychological symbolism. Revised translation, with new *bibliography* and *index*.

The Collected Works of C.G. Jung Carl Gustav Jung 1992

The Archetypes and the Collective Unconscious C.G. Jung 2014-12-18 The concept of 'Archetypes' and the hypothesis of 'A Collective Unconscious' are two of Jung's better known and most exciting ideas. In this

volume - taken from the Collected Works and appearing in paperback for the first time - Jung describes and elaborates the two concepts. Three essays establish the theoretical basis which are then followed by essays on specific archetypes. The relation of these to the process of individuation is examined in the last section. The Archetypes and the Collective Unconscious is one of Jung's central works. There are many illustrations in full colour.

The Collected Works of C.G. Jung ... Editors: Herbert Read, Michael Fordham ... Gerhard Adler Carl Gustav Jung Collected Works of C.G. Jung, Volume 9 (Part 2) C. G. Jung 1953 Aion, originally published in German in 1951, is one of the major works of Jung's later years. The central theme of the volume is the symbolic representation of the psychic totality through the concept of the Self, whose traditional historical equivalent is the figure of Christ. Jung demonstrates his thesis by an investigation of the Allegoria Christi, especially the fish symbol, but also of Gnostic and alchemical symbolism, which he treats as phenomena of cultural assimilation. The first four chapters, on the ego, the shadow, and the anima and animus, provide a valuable summation of these key concepts in Jung's system of psychology.

The Collected Works of C. G. Jung C. G. Jung 1993

The Collected Works of C.G. Jung C. G. Jung 2014-03-01 For the first time, The Collected Works of C. G. Jung is now available in a complete digital edition that is full-text searchable. The Complete Digital Edition includes Vols. 1-18 and Vol. 19, the General Bibliography of C. G. Jung's Writings. (Vol. 20, the General Index to the Collected Works, is not included.) Volumes 1-18 of The Collected Works are available for individual purchase and are also full-text searchable at <http://press.princeton.edu/catalogs/series/bscwj.html> [The Collected Works of C.G. Jung]. The Collected Works of C. G. Jung forms one of the basic texts of twentieth-century thought: at once foundational for depth psychology and pivotal for intellectual, cultural, and

religious history. The writings presented here, spanning five decades, embody Jung's attempt to establish an interdisciplinary science of analytical psychology, and apply its insights to the fields of psychiatry, criminology, psychotherapy, psychoanalysis, personality psychology, anthropology, physics, biology, education, the arts and literature, the history of the mind and its symbols, comparative religion, alchemy, and contemporary culture and politics, among others: each in turn has been decisively marked by his thought. Of timely and ongoing relevance to the understanding of these fields, Jung's writings are at the same time essential reading for any understanding of the making of the modern mind. **Dreams** C. G. Jung 2010-11-14 "From The collected works of C.G. Jung, volumes 4, 8, 12, 16"--P. [i].

Collected Works of C.G. Jung, Volume 19 C. G. Jung 2014-03-01 As a current record of all of C. G. Jung's publications in German and in English, this volume will replace the general bibliography published in 1979 as Volume 19 of the Collected Works of C. G. Jung. In the form of a checklist, this new volume records through 1990 the initial publication of each original work by Jung, each translation into English, and all significant new editions, including paperbacks and publications in periodicals. The contents of the respective volumes of the Collected Works of C. G. Jung and the Gesammelte Werke (published in Switzerland) are listed in parallel to show the interrelation of the two editions. Jung's seminars are dealt with in detail. Where possible, information is provided about the origin of works that were first conceived as lectures. There are indexes of all publications, personal names, organizations and societies, and periodicals.

Psychology and Alchemy Carl G. Jung 1989

Psychology and Alchemy C. G. Jung 2014-12-18 Alchemy is central to Jung's hypothesis of the collective unconscious. In this volume he begins with an outline of the process and aims of psychotherapy, and then moves on to work out the analogies between alchemy, Christian dogma and symbolism and his own understanding of the

analytic process. Introducing the basic concepts of alchemy, Jung reminds us of the dual nature of alchemy, comprising both the chemical process and a parallel mystical component. He also discusses the seemingly deliberate mystification of the alchemists. Finally, in using the alchemical process as providing insights into individuation, Jung emphasises the importance of alchemy in relating to us the transcendent nature of the psyche.

The Collected Works of C.G. Jung C. G. Jung 1968
Collected Works of C.G. Jung, Volume 18 C. G. Jung 2014-03-01 This volume is a miscellany of writings that Jung published after the Collected Works had been planned, minor and fugitive works that he wished to assign to a special volume, and early writings that came to light in the course of research.

The Collected Works of C.G. Jung: Psychology and alchemy. 2d ed. 1968 Carl Gustav Jung 1953

The Collected Works of C.G. Jung: Alchemical studies

Carl Gustav Jung 1973

Two Essays on Analytical Psychology Carl Gustav Jung 1992 This volume from the Collected Works of C.G. Jung has become known as perhaps the best introduction to Jung's work. In these famous essays he presented the essential core of his system. This is the first paperback publication of this key work in its revised and augmented second edition. The earliest versions of the essays are included in an Appendix, containing as they do the first tentative formulations of Jung's concept of archetypes and the collective unconscious, as well as his germinating theory of types.

Collected Works of C.G. Jung, Volume 14 C. G. Jung 2014-03-01 Jung's last major work, completed in his 81st year, on the synthesis of the opposites in alchemy and psychology.

Collected Works of C.G. Jung, Volume 20 C. G. Jung 1953

An exceptionally comprehensive index by paragraph numbers. Certain subjects are treated in separate sub-indexes within the General Index. These include alchemy, animals, the Bible, colors, Freud, Jung, and numbers.

The Archetypes and the Collective Unconscious Carl Gustav Jung 1969 Essays which state the fundamentals of Jung's psychological system: "On the Psychology of the Unconscious" and "The Relations Between the Ego and the Unconscious," with their original versions in an appendix.

Mysterium Coniunctionis Carl Gustav Jung 1963-03-01 *Mysterium Coniunctionis* was first published in the Collected Works of C.G. Jung in 1963. For this second edition of the work, numerous corrections and revisions have been made in cross-references to other volumes of the Collected Works now available and likewise in the Bibliography. *Mysterium Coniunctionis* was Jung's last work of book length and gives a final account of his lengthy researches in alchemy. It was Jung's empirical discovery that certain key problems of modern man were prefigures in what the alchemists called their 'art' or 'process'. Jung maintained that 'the world of alchemical symbols does not belong to the rubbish heap of the past, but stands in a very real and living relationship to our most recent discoveries concerning the psychology of the unconscious'. The volume includes ten plates, a Bibliography, an Index, and an Appendix of original Latin and Greek texts quoted in the work.

Collected Works of C.G. Jung: Psychology and alchemy

Carl Gustav Jung 1953

Aion: Untersuchungen Zur Symbolgeschichte Carl Gustav Jung 1974 One of a number of major works written by Jung during his seventies in which he discusses the relationships between psychology, alchemy and religion. The particular focus in this volume is the rise of Christianity and the figure of Christ.
